REMARKABLE PATRICIDE.

Boy of Nineteen Deliberately Kills His Father.

Terrible Sequel to Family Troubles.

NEW YORK, June 3.—Frank H. Walworth, aged nineteen, shot and killed his father, Mansfield T. Walworth, in the Sturtevant House this morning. Deceased was an author and boarded at the Sturtevant House, away from his family. Domestic trouble is assigned as the cause of the tragedy.

FULLER PARTICULARS.

The particulars of the shooting of Mansfield Tracy Walworth this morning are as follows: Yesterday afternoon about three o'clock Frank H. Walworth arrived in this city from Saratoga and put up at the Sturtevant House. He was assigned to No. 267. After cleansing himself from the dust of travel he went out and proceeded to the house where his father was boarding, Fourth avenue, two doors north of Fifty-fourth street, he inquired for Mr. Walworth, and was informed that he was not at home. He then left a note, asking his father to call at the Sturtevant House and see him, as he wanted to settle up some family matters. When Mr. Walworth reached his house he received the note which his son had left, and this morning left the house about six o'clock to go and see him. At 6:15 Walworth entered the Sturtevant House and inquired of the night clerk for Frank H. Walworth. The clerk sent a bell boy up to his room with the card of Mr. Walworth, Sr., to ascertain if the son would then see him. The boy soon returned with the answer to show the gentleman up. Walworth, senior, then went up stairs, and in about fifteen or twenty minutes afterward the sound of shots was heard coming from the room by one of the chambermaids, who ran down stairs and informed the clerk. The clerk immediately sent out for an officer, but before he arrived Frank Walworth walked down stairs with his coat on his arm, stated to the clerk that he had shot his father, and asked where the nearest police station was. After receiving the desired information he went to the telegraph office and sent off a dispatch to his uncle, in Saratoga, telling him what he had done, and asking him to break the news as gently as possible to his mother before she could hear of it in any other way. He then proceeded to the Thirtieth street police station, and, walking up to the desk, stated to Sergeant Mullin, who was in charge, that he had shot his father, who was then lying dead in the Sturtevant House, at the same time handing over his revolver, which proved to be one of Colt's five barreled. The Sergeant examined the chambers of the revolver and found that four of them had recently been emptied of their contents. He then asked the young man why he committed the murder, and the answer was, "Family troubles." He was then taken back and locked up in one of the cells, after which the Sergeant went down to the Sturtevant House to ascertain the truth or falsity of the statement made by the prisoner. The hotel clerk told him that it was true, showing him to the room where the body of the senior Walworth had been found lying on the floor with a pool of blood about his head. Coroner Youngson arrived, made an examination of the body and found there were four bullet wounds, a wound in the left side and one in the right side of the chest, another in the left arm and yet another in the right side of the face near the ear. There are marks of powder near this, so that the weapon must have been close to the flesh when it was discharged. The Coroner then gave a permit for the removal of the body, which was subsequently taken to the undertakers. The prisoner will remain at the station house until after the inquest, and should a verdict be rendered against him he will be sent to the tombs. He is but nineteen years of age and treats the affair very lightly; expresses no regret for the murder, except in so far as the terrible distress it will occasion his mother and family. No pistol was found in the pockets of the deceased, but the note left for him by his son was found in his breast pocket. At the time of his death Walworth was publishing a serial story in the New York *Weekly*, and had another novel in press. Chief Justice Barbour, of the Superior Court, on hearing of the death of Walworth, adjourned the Court which he was holding, the deceased being his nephew, and also a son of the late Chancellor Walworth.

SARATOGA, June 3.—Frank Walworth, who is reported to have shot his father in New York city, left here yesterday morning without informing his mother of his intention. Mrs. Walworth had received a number of threatening letters from her late husband, Mansfield Tracy Walworth, and it is supposed that young Walworth has intercepted similar letters to her from his father, as she has found in her son's room two empty envelopes to her own address since he left home. The mother thinks her son had also received threatening letters from his father. Mrs. Walworth was divorced from her husband about two years ago.

STATEMENT OF THE MURDERER.

NEW YORK, June 3.—Frank H. Walworth, who shot his father in the Sturtevant House this morning, tells the following story concerning the shooting and causes which led thereto: "I reside with my mother in Saratoga, my father having parted from her some years ago. My father is about forty-one years old, but do not know where he was born. My father has not lived with my mother since we left here, three years ago, but he has repeatedly sent us threatening and insulting letters; it is only a short time ago since he threatened to shoot my mother and myself. I shot him because of this. Not long ago I met him on the street in Saratoga, and I then told him that if he did not keep away from us, or insulted my mother any more, I would shoot him. I told him there were bounds which I would not allow any man to go beyond with impunity, and especially when my mother was being insulted. I went to his house yesterday and left a note for him to call on me, which he did this morning. When he came in the room, I drew a revolver, and told him to promise me that he would not threaten or insult us any more, which he promised. Shortly afterward we began speaking on family matters, and he used some very insulting language, and put his hand on his pocket as though to draw out a pistol, when I shot him; he then came towards me, and I fired three other shots at him; when I fired the last shot at him he had me by the collar. I only regret this on account of the effect it will have on my family. I would like Judge Barbour to know this." Dr. Marsh did not find any pistol in the pockets of deceased, but found a note left for him by his son, in his breast pocket. The following is a copy of the note:

"THREE O'CLOCK.—I want to try and settle some family matters. Call at Sturtevant House after an hour or two. If I am not there I will leave word at the office.

[Signed.] "F. H. WALWORTH."

Mr. Walworth was born in Albany in 1830. He was educated for the legal profession, and after being admitted to the bar assisted his father, Chancellor Walworth, for a short time in his office at Albany; but the profession became distasteful, and he soon turned his attention to literature. Mr. Walworth married some years ago, and the result of that union is two daughters, now between twelve and fourteen years, and the son by whom he lost his life. He has been separated from his wife for some years, and that lady is now keeping an excellent seminary for young ladies on the estate of the late Chancellor Walworth, at Saratoga Springs, where she is living in elegant style. Mr. Walworth's contributions to the literature of the day are embodied in five novels, Hotspur, Keeler, Warwick, Delaplain and Beverly.

The *Tribune* furnishes the following: Mrs. Walworth, a little more than three years ago, instituted proceedings for divorce and eventually obtained a bill of separation on the ground of cruel treatment on the part of her husband, and she received the sympathy and support of the relatives of herself and husband and all friends who were conversant with the facts in the case. Since her separation from him, Walworth has annoyed her in various ways, principally by writing her abusive letters, and occasionally threatening her life. He has also reflected upon her character, it is said, in an indirect way, in one of his works of fiction. Mrs. Walworth was a daughter of General Hardin, of Illinois, a military man of prominence in the Mexican war, he having especially distinguished himself at Buena Vista. Frank Walworth, on a commitment made out by the Coroner, has been removed to the Tombs. Mrs. Walworth telegraphed to ex-Judge Beach, "See my son, Frank H. Walworth, at once, and attend to his case." Beach subsequently had a consultation with his client.

ARMSTRONG COUNTY NOMINATIONS.

KITTANNING, PA., June 3, 1873.

The following Republican ticket was nominated here to-day: Assembly, Robert Thompson; District Attorney, G. S. Crosby; Sheriff, G. A. Williams; Treasurer, James Piper; Commissioner, Thomas Herron; Auditor, D. W. Schaffer; Jury Commissioner, A. Glenn.

At the meeting of the Cambria county Democratic Committee, at Ebensburg, on Monday, it was resolved that the delegate elections should be held on the 21st inst., and the County Convention on the 23d.

The Altoona *Tribune* thinks it was all right for the members of the Constitutional Convention to vote themselves big pay, as the salary was not fixed by law, but thinks they ought to get through with their work and adjourn at an early day.

General.

Ex-Senator Pomeroy will be tried on the bribery charge at Topeka some time during this month.

In a long article reviewing the political situation, the New York *World* frankly states that "there is nothing in the present condition of the Republican party which portends its speedy dissolution.

Mr. Mueller, the Republican Lieutenant-Governor of Ohio, from Cleveland, and a member of the Constitutional Convention, proposes to insert a section in the Constitution to guarantee electors the right to recall member, of the Legislature when they are displeased with them.

The Cincinnati *Enquirer* devotes about a column a day to prove that the platform recently adopted by the Ohio Republicans is "empty." To most readers it is the writer's head which seems "empty."

An Iowa journal states that a call has been signed by 291 citizens of Polk county for a public meeting in Des Moines, Ia., June 7, to consider the propriety of nominating candidates to be supported by the people, regardless of politics, at the October election of Governor, Legislature, &c.

Do the people of the United States know that they are living under a merciless, a crushing despotism? Do they know that Grant is a tyrant and the army and United States Courts are tools in his hands wherewith he means to crush out every vestige of freedom and ride roughshod over their necks to imperial power? Do they appreciate these solemn facts? If they do not, it is time they should. The Democratic papers assure us that such are the facts—and who ever knew a Democratic paper to lie.

The Creston (Iowa) *Journal* has this to say to disconsolate Democratic politicians in search of immaculate public officers: The leaders in the Democratic party are in a sad condition. They affect a high-toned morality in political affairs, but fail to convince the public that they are really converted from the error of their ways. They have preached honesty and reform so much, and practiced it so little, that no one has confidence in their sincerity. The short-comings of a few Republicans have been eagerly seized upon by these disconsolate politicians, and they have tried their best to convince the people that an exceptional piece of rascality was the rule of the party. But they have made slow progress in the work. So many Democrats have been mixed up in the corrupt schemes that have been exposed through the vigilance of the Republican party that a blow aimed at the head of an opponent is sure to kill one of their own friends. It is very perplexing to have their eloquent "sermons" on the necessity of political purity marred by the indiscreet action of their friends.

The Beaver county Republican Convention met in Beaver on Monday, 2d inst., and was organized by choosing Dr. W. C. Shurlock as chairman, and F. Miner and James H. Trimble as secretaries. The returns from the different townships being opened, read and footed up, showed Hon. J. S. Cross was nominated for the Legislature. O. A. Small, Esq., for Prothonotary, James H. Mann for Treasurer, G. W. Shroades for County Commissioner, Jno. Wilson for Jury Commissioner, Saml. McManamy for Poor House Director, Joseph F. Culbertson for Auditor, and P. L. Grim and R. S. Imbrie for Trustees of the Academy. After the result of the vote was announced, Captain George W. Hamilton, of Beaver, was elected Chairman of the County Committee, and Captains W. S. Shallenberger and D. Crichlow were selected as the delegates to the Republican State Convention.

THE MODOC CAPTIVES.

How to Dispose of Them.

The Polaris Survivors.

Special Dispatch to the Commercial.

WASHINGTON, D. C., June 3, 1873.

The Modoc Conundrum.

The question of the hour now is, what shall be done with the Modocs? The War Department is advised that General Davis made no terms of surrender with any of them from first to last, the only assurance that he gave them being that they should have justice done them. At the Cabinet meeting to-day nothing but routine business was transacted. The President announced his intention to start with his family for Long Branch on Thursday. He stated that he should return to Washington at intervals of every two or three weeks to consider such business as accumulated demanding his attention. The President and the members of the Cabinet had an extended conversation on the end of the Modoc campaign, and much praise was bestowed on General Davis for his management since his assumption of the command. It was, however, deemed proper to take no formal action at this time in reference to the disposition to be made of the prisoners, but to await the reception of the official report of Gen. Davis, which will furnish the full particulars of his operations. Gen. Davis will make his report to Gen. Schofield, and inquire what disposition he shall make of his prisoners. Gen. Schofield will refer the matter to headquarters here, and the government will then make its decision. The views expressed by Gen. Sherman seem to be pretty generally shared in official circles, and the impression is that all of the captured Modocs who are amenable to the civil law will be handed over to the State authorities. Most of them are already under indictment for murder, and there can be no doubt that they will speedily get what General Davis promised them, "Justice." Captain Jack, and those who participated with him in the murder of General Canby and Dr. Thomas, have two chances for hanging, if turned over to the civil authorities, or if tried by drum head court martial, to which they are liable for having treacherously violated the flag of truce. General Sherman to-day repeated his opinion that the whole tribe should be turned over to the civil authorities, but expressed a fear that the civil courts would work too slow. He says that although he instructed Gillem to exterminate the Modocs, that the troops could not have the heart to shoot them down when they threw up their arms and asked for quarter.

General Sherman's apprehensions that the civil courts will work too slow are no doubt groundless. It is true the dispatches say that Captain Jack is playing the insane dodge, but that won't go down in Oregon, and it is not likely to get a change of venue to New York.

The Polar Expeditionists.

A number of persons visited the navy yard to-day for the purpose of seeing the Frolic, the vessel that was dispatched to St. Johns, N. F., by the Navy Department, and which has on board Captain Tyson and the others who were rescued from the ice floe after they had parted from the ill-fated Polaris, but nothing was heard from the vessel, although its arrival is daily expected, having had sufficient time to get to this city from the time it left St. Johns. When the vessel does arrive it is said that a thorough investigation will be made by the Navy Department, when the truth in relation to the circumstances attending the abandonment of a part of the officers and of the men of the Polaris will be ascertained. As there were a number of Washingtonians on board of the Polaris, their friends and acquaintances of course are anxious to hear about them.

WASHINGTON, D. C., June 3, 1873.

RELIGIOUS TOLERATION IN JAPAN.

The Department of State has received information from De Long to the effect that religious toleration in Japan has not been decreed. The laws and edicts against Christianity have not been abolished, but orders have been issued for the return of banished Christians to their homes and for the removal of offensive proclamations against Christianity. Those in government councils favoring religious toleration were said to be still in the minority, but it was thought that the time was not far distant when all decrees against freedom of thought upon all subjects would be abolished.

United Presbyterian General Assembly.

PHILADELPHIA, June 3.—In the United Presbyterian Assembly this morning Rev. Dr. Thompson, from the Free Italian Church, was introduced as delegate, and in a few remarks extended the salutation of his church to the Assembly.

Resolutions were adopted providing for the retention of church properties in the control of the General Assembly, by a provision in the charters of churches preventing the alienation of properties of congregations of the United Presbyterian Church to other denominations, and providing that in case they alter their ecclesiastical connections these properties shall revert to the trustees of the General Assembly: also that the trustees shall be in full communion with the church, and that the use of the church buildings for worship and for other meetings shall be under the control of the sessions of the church.

The Committee on Union reported, that while cherishing kind and Christian regard for all Evangelical churches, yet the Assembly does not deem it expedient or important that it make any appointments of delegates or representatives to attend the meeting of the Alliance to be held at New York in October. The report was adopted.

The report of the Committee on Seminaries was adopted as a whole.

The report of the Committee on Missions was then taken up, and, on motion, the matter establishing normal schools among the freedmen of Tennessee was referred to the Board of Freedmen's Missions, with instructions to report at the next General Assembly. A resolution looking to the purchase of the Freedmen's Mission church, at Nashville, was adopted.

PUBLIC AMUSEMENTS.

Pittsburgh Opera House.

Tony Pastor takes possession of the Opera House next Monday, June 9th, with his traveling combination of beauty and talent. The fame of the New York Pastor Opera House is so wide that our readers will need no introduction to "Tony." He brings with him a dozen or more of the most attractive stars which ever shone in any similar constellation; for instance, Delehanty and Hengler, Miss Ella Wesner, the Freeman Sisters, Miss Jennie Engel, Miss Maggie Fielding, Gus Williams, John Fielding, J. W. McAndrews, Billy Carter, Frank Girard and the celebrated Prof. O'Reardon, who makes wonderful music on the tumblericon. The bill for the first evening is a long and brilliant one. The troupe will remain one week, and give Wednesday and Saturday matinees.

Woman Suffrage Association.

The third anniversary of the Pittsburgh Woman Suffrage Association will be held to-morrow evening in the First Methodist church, Fifth avenue. Mrs. H. M. T. Cutler will deliver the address, and is said to be a sincere, earnest and eloquent advocate of the cause. Stubborn facts and solid argument are promised in Mrs. Cutler's behalf, and she will have a splendid opportunity to display all of these to an attentive and respectful audience.

Sacred Concert.

At St. Bridget's church, to-morrow evening, a sacred concert will be given by the choir of the church, assisted by a well-trained chorus, all under the direction of Mr. Thomas F. Kirk. The selections are from Handel, Haydn, Mozart, Rossini, and other celebrated authors. Miss Lizzie Kirk will preside at the organ, and the St. Bridget's band will contribute some of their choicest music.

Allegheny Board of Controllers.

The stated meeting of the Board of Controllers of Allegheny City was held in the Common Council Chamber last evening.

It was determined that the Pittsburgh schedule of prices for teachers should go into effect in Allegheny September 1st. Mr. A. F. Martin, Chairman of the Committee on Special Instruction, reported that owing to the unfortunate action of the Board last February, whereby the functions of all committees were declared to be then ended, it was impossible for the committee to make their annual report. This paper was not favorably received by the Board, many thinking it contained an implied censure, and it was referred back to the committee. Mr. Martin reported verbally that the Library was in good condition; six hundred new members have been added and about one thousand books are constantly in the hands of readers.

A vote of thanks was passed to Mr. J. G. Brown, formerly Clerk of the Court of Quarter Sessions of this county, and now a member of the Virginia Legislature, for original surveys and map of Virginia and portions of Delaware and Pennsylvania, which he had presented to the Board.

The following bills were presented and passed, and warrants ordered for their payment: Dalzell & Parker, $62 76 for furniture; Pittsburgh Central Board of Education, $325 for tuition of mutes from the city of Allegheny; the colored school, $18 75 for music books.

A resolution was offered setting forth that much complaint existed in regard to the assignment of teachers to the different schools, and that in the grammar school, where were the fewest pupils, tuition was highest, and proposing the following basis for the election of teachers, to take effect on the first of next September: In the primary schools, one teacher for every fifty pupils; in the medium department, one teacher for every forty-five pupils; in the grammar schools, one teacher for every thirty-five pupils; any school which for three months shall have an excess of pupils equal to one-half the number required for one teacher, to be entitled to one teacher additional. The resolution was referred to the Committee on Teachers and Salaries, with instructions to report at the next stated meeting.

A resolution was adopted, inviting the members from the Tenth and Eleventh wards to take their seats at the next meeting.

CITY MATTERS IN BRIEF.

THE PAY ROLL of the Allegheny day police for May amounts to $3,630 93.

TWELVE hundred cattle are devoured weekly by the people of Pittsburgh and Allegheny.

THE Sewickley excursion and sale take place to-morrow. Free trains leave Allegheny at 8:38, 12:23, and 12:08. Lunch at one. Everybody is invited.

ABOUT half-past two o'clock, yesterday morning, a resident of Manchester was found near the Allegheny hay market in an insensible condition. He was taken to the police station, and Dr. Cole thinks he had been drugged.

AMOS MAILLAND, one of the men convicted of attempting to assassinate Mr. McIntyre, escaped from the Penitentiary Monday afternoon while out working in the yard. Officer Harris, of the Allegheny police, captured the runaway and got fifty dollars for his trouble.

YESTERDAY evening, shortly after dusk, a woman gave birth to a female child on the pavement near St. Patrick's Church, Liberty street. She was taken to a house near by, and Dr. Ahl was summoned to attend her. Mother and child are doing well. The woman states that she resides at McKeesport.

MAYOR CALLOW fined Mrs. Isabella Wasson twenty-five dollars last night for abusing Mrs. Mary Berry with offensive language, and disturbing her immediate neighborhood. The alternative to the fine was twenty days in the Workhouse, and this Mrs. Wasson was obliged to accept.

YESTERDAY afternoon, between the hours of two and three o'clock, a free fight was indulged in by half a dozen young men, in the rear of Fred Goldman's saloon, Allegheny. The proprietor of the saloon and four of the participants were fined twenty-five dollars each by the Mayor last evening. The fines were all paid. The police are looking for two others who had a part in the disturbance.

IN A RURAL paper we find the following:

Mary had a little lamb
With which she used to tussel,
She snatched the wool clean off its back,
And stuffed it in her bustle.

And when he saw he had been fleeced,
He in a passion flew,
So Mary got up on her ear
And stuffed the lamb in to.

EXTENSIVE MAIL ROBBERIES.

A Former Resident of Pittsburgh Arrested for Robbery and Forgery.

R. L. Dudley, formerly of Pittsburgh, was arrested in Boston on Saturday last by United States detectives, charged with complicity in extensive mail robberies on the Lake Shore and Michigan Railroad, which extend over a period of two years last past. The Post office authorities at Washington have for a long time known of the tampering with the mails on this route, and have made every effort to get upon the track of the guilty parties, but until last November, no clue to the mystery could be discovered. Many drafts had been stolen from the mails between Toledo and Buffalo, the endorsements forged, and the money paid upon them by different express companies through the country. The first draft missed was one drawn on the Bank of North America in New York by the Batavia bank at La Crosse, Wisconsin, payable to the order of Governor Washburne, for $1,500, and by him endorsed to the order of Dr. Wm. L. Richardson, of Boston. Within forty-eight hours afterwards, this draft was presented at the Adams Express office in this city for collection, and bore the following additional endorsements:

"Pay Sanford & Co., or order.
DR. WM. L. RICHARDSON,
Pay R. L. Dudley, or order.
SANFORD & Co.,
R. L. DUDLEY."

Dudley was acquainted at the Express office and had transacted business there, and therefore the draft was accepted, endorsed, and forwarded to New York, where it was paid, and the money handed over to Dudley, who then disappeared. Several other drafts for smaller amounts were similarly negotiated by Dudley, under different aliases, in Albano, Buffalo, Newark, N. J., Rochester, N. Y., and Toledo, and one in Troy, N. Y., for $15,917 11.

The case was given to Pinkerton's Detective Agency, an investigation begun, and a warrant for the arrest of Dudley issued by United States Commissioner McCandless of this city. The first clue obtained was in an office in Philadelphia formerly occupied by Dudley. A large blotting pad was found, on which were discernable several addresses transferred from freshly directed envelopes, one of which was, "W. R. Wales, Whitehouse, Ohio." The detectives visited Whitehouse, which is about seventeen miles from Toledo, shadowed Wales, followed him to New York and Massachusetts, and finally arrested him, on suspicion, at Erie, March 18th. The prisoner was carried to Philadelphia, and subsequently confessed that he had been engaged with Dudley in the unlawful proceedings above mentioned. From Wales the detectives got a description of Dudley, and such a clue to his whereabouts that he was run down at Boston and arrested, as stated, on Saturday. Dudley and wife (who was also arrested) were living in a $10,000 house, which has been attached. Five thousand dollars in bonds were also secured. It is not known where Dudley will be tried, though probably here, as the warrant was issued and the first draft negotiated here. This matter the Washington authorities will shortly decide.

A Home at Crafton.

Young people lately married and old people tired of boarding, rich people who would build for themselves a beautiful country residence and poor people who cannot afford a home in the city, are invited to take an excursion on Friday of this week to one of the garden spots of Allegheny county, and select a site for just such a home as their fancy pictures and their purses will afford. The beautiful Chartiers valley, so near the city, and yet so essentially and attractively rural in itself, offers the rarest opportunities to all who seek a quiet country home. It is conceded that one of the most desirable locations in this enchanting valley is Crafton. It is but two and a quarter miles from the Union Depot on the Pan Handle Railroad, and but four hundred yards from the city limits. It is the best station in the neighborhood in respect to railroad accommodations, fourteen trains stopping there daily. Episcopal and Catholic churches are established there, and a good school is conveniently accessible.

Lots may be bought at auction in Crafton, on Friday, the 6th instant. An excursion train will leave the Union Depot at 9:30 A. M., and carry free all who wish to spy out the land. Lunch will be provided on the grounds of Mr. Alex. McFarland, and all are invited to partake.

The lots measure 50 by 150 feet, and will be sold on unusually easy terms. The property to be sold is immediately opposite the station, and those who buy no lot will not regret the pleasure trip to the country. See Crafton before you give up all hope of a rural retreat from the heat and smoke of Pittsburgh.

Compliment to a Pittsburgh Firm.

We are being continually notified of the superiority of the different articles manufactured in this city, and a great many accompanied with the most flattering recommendations. The firm of Messrs. Smith & Sons, of the National Pipe Foundry, Twenty-third street, near Penn avenue, come in for the largest share of commendation. This firm have received some of the largest contracts ever awarded to any one firm, not only in this city but from abroad. On last Saturday they received the contract for furnishing six miles of pipe for the city of Chicago, they getting the preference over some ten or twelve competitors. This contract was awarded from the fact of the firm having such a national reputation of furnishing the best pipes manufactured anywhere.

OFFICE OF THE BOARD OF HEALTH,
PITTSBURGH, June 3, 1873.

☞ TO THE PUBLIC—

Reports have lately been received at this office which indicate that our city MAY be visited by Epidemic Cholera during the coming summer.

As it is only by united efforts upon the part of this Board, the Street Committee and Street Commissioners, together with the earnest personal efforts of all our citizens that such a calamity may be averted; I would therefore earnestly urge upon all such to see that every street, alley, yard, cellar, &c., is kept in the best possible sanitary condition.

The Board of Health is now, as in the past, using all the means in its power to accomplish this end, but without the co-operation of our citizens, its efforts will, in some measure at least, fail.

I would also again give notice, that all persons found violating any of the laws or regulations of this Board will be summarily dealt with in accordance therewith.

CROSBY GRAY,
Health Officer.

THE NOMINATIONS.

The Republican party of this county had a difficult task to perform, yesterday, and we are gratified at being able to announce that it has performed it successfully and to general acceptation. Five conventions were assembled, of one hundred and twenty-six delegates each; and the marvel is that so large a body of men should get along so harmoniously and make a ticket so generally acceptable. The delegates were animated by a strong desire to make a good ticket, and they have succeeded, although many of the defeated candidates would have been equally satisfactory, had they been nominated.

The first point of interest was the Judicial Convention. There were two Judges to nominate—a President Judge, to succeed Judge HAMPTON, and an Associate Law Judge, for the District Court. Judge HAMPTON had filled the President Judgeship for twenty years to general satisfaction, and although neither he nor his friends made a canvass for a renomination, and as a very active canvass was made by the friends of the other two candidates, the spontaneous vote which sprang up for him was nearly able to control the Convention. The spontaneity and freshness of this vote was the highest possible compliment short of a renomination, which could have been paid to him. The successful candidate, Hon. THOS. EWING, is an experienced lawyer and has the confidence and respect of the entire bar. The friends of the other candidates are entirely satisfied with him and will concur in giving him a hearty support. We know and can vouch for Mr. EWING as a man of great ability, a sound and trusty lawyer, and one whose integrity and public and private character is without reproach.

For the Associate Judgeship there was an active and close struggle. Mr. FETTERMAN is a young man, with a good record and a bright future before him, and the young members of the bar rallied to him with an enthusiasm that was both justifiable and natural. Mr. HAWKINS, also, had the sympathy of a large number of the best practitioners at the bar, and possesses a conceded fitness for the place. Mr. WHITE, however, had the advantage of age and experience, and has been preferred solely on these grounds, added to unquestioned ability and fitness. Either of the three named would have been good nominees, but every one concedes Mr. WHITE's fitness, and personally, we are gratified at the elevation of one with whom we have been pleasantly and personally associated for a period of years so long that, to mention it, would make us both seem older than we really are.

Altogether, the Judicial ticket is a good and satisfactory one. Judge HAMPTON, we are glad to be able to say, regards it as such, and heartily acquiesces in its nomination. In this he will be joined by the bar, generally; and while the defeat of particular candidates is a matter of regret to their personal friends and supporters, there is a general concession, all round, as to the fitness of both nominees for the places to which they have been named.

It is due, here and now, to say of Judge HAMPTON that for twenty years he has performed his arduous duties with unswerving fidelity and consummate ability. No Judge in Pennsylvania has earned a better or brighter record than he. His name is one well known and recognized throughout the State, and no man who has served an equal period on the bench can carry into his retiracy a prouder consciousness of judicial rectitude and fidelity. He is one of the few men in Allegheny county who has been as long and continuously in active and political life as we have been ourselves, and he closes a long and honorable career with the profound respect and hearty sympathy of all who have ever known him, or been brought in contact with him.

The Legislative Convention was also a point of great attraction and interest during the fight. The struggle for State Senator resulted as all clear-eyed men were able long ago to see it would result, in Mr. ANDERSON's renomination by the very decisive vote of nearly three to one. Mr. ANDERSON has been a good and faithful Senator, and having served but one term, there was a very natural feeling that he was fairly entitled to a renomination. The contest over it has been somewhat bitter, but every one is satisfied, if not gratified, with the result.

For the Assembly, Messrs. WAINWRIGHT and McCORMICK, from the city, were conceded a unanimous renomination. The same compliment was paid Mr. NEWMYER, (and it was very worthily bestowed;) and Mr. YOUNG, of the old delegation, was also complimented by a flattering vote, which put him through on the first ballot. Of the new men, Mr. A. C. HAYS, of Birmingham, is a young business man, with a good and clean record, and of unquestioned ability. Mr. GERWIG, of Allegheny, is also a comparatively young man, of German parentage, who was born in and has grown up with Allegheny City, and from our knowledge of him, we are sure he will prove a worthy and excellent member. Mr. B. C. CHRISTY, the remaining nominee, is a young lawyer, living in Sewickley, who has rendered effective service hitherto as one of the Secretaries of the Republican County Committee, and is peculiarly well qualified by his character and acquisitions for the place to which he has been named. Altogether, the Assembly ticket is a remarkably good one, and in every way worthy of support.

For Prothonotary, the nominee is familiarly known as "Doc" KENNEDY, although he is not a doctor but a lawyer. We confess that our sympathies were with the old Prothonotary, and that we would rather have seen him renominated; but we recognize in the nominee one who, by long experience in the office, is peculiarly well qualified for the place.

For Treasurer, the present incumbent, Capt. KILGORE, had no opposition. He well deserved the compliment of a unanimous renomination.

The nominee for Coroner had the enthusiastic support of the younger element in the Republican ranks. We are assured that he is worthy of the energy they displayed in his behalf, and that he will make not only a good Coroner, but one who will in nowise bring discredit on his office.

The struggle for the Commissioner's office was an ardent and active one. Mr. BECKERT has won the nomination fairly and honestly, and we bespeak for him the hearty support of the party. He will make a good Commissioner, and bring undoubted capacity and an unblemished character to back him in his aspirations.

Captain JOHN McCLELLAND, nominated for Jury Commissioner, is an excellent and worthy farmer of West Deer. He served faithfully in the late war, and we can vouch for him as one of the always active and always reliable men of his portion of the county.

THOMAS VARNER, Esq., one of the present Directors of the Poor, has been renominated. Everybody in the county knows 'Squire VARNER, and everybody likes and respects him. *That* nomination could not well be improved.

Taken all in all, the ticket is one of the best ever nominated in Allegheny county. The friends of the defeated candidates will naturally think it might have been bettered by the success of their men; but all will concede that the ticket is a good and unexceptionable one. We put it at the head of our columns with a hearty good will, and will cheerfully support it to the end.

ONE of the noteworthy signs of the times is the renewal of pilgrimages in France. Every one has heard of the tens of thousands of devout worshippers who last year visited Lourdes and other holy places. However, close observers, some of them by no means scoffers even at Roman Catholicism, were unable to perceive in those processions anything of the ancient spirit or of a modern substitute which seemed to promise a revival of the mediæval institution. We now hear of an attempt to reproduce those pilgrimages to Rome which were so common and sometimes so edifying in the ages of faith. But the attempt was not imposing or impressive to a degree likely to inspire imitation. The pilgrims were all Frenchmen of the upper classes, and generally dressed in the latest Parisian fashion. Neither "broad hat," nor "cockle-shell," nor "pilgrim staff," the badges of the pilgrims of other days, was to be seen among them, and instead of entering the Holy City barefoot and chanting pious canticles, they entered it as ordinary travelers. They did not even arrive together or in a body, but straggled in, each in his own way. In the address presented by them to His Holiness, they stated that devout pilgrimages had again become normal institutions in France, and that the Council General of French pilgrims had chosen as their celestial patron the blessed JOSEPH LABRE, a French beggar, who died in Rome in the odor of sanctity only fifty years ago, and was recently canonized.

In connection with the visit of the French pilgrims, it is interesting to learn that two young German girls, one fifteen, and the other eighteen, suitably escorted, lately passed through Florence on a devout pilgrimage to Rome. They bore pilgrim staves, though they traveled by the railroad. The Italians were rather surprised to see that these young pilgrims disdained neither the opera nor the ballet, but seemed greatly to enjoy the performance of Fats Nile in the Prince Umbert theater. The old times will not come back.

IN THE Supreme Court of New York, general term, on Saturday, Judge SEDGWICK rendered an important decision bearing upon workingmen's strikes and their effect, as impairing the validity of contracts. The case may be thus briefly stated: In 1870 HENRY. B. BOWEN contracted with the Delaware, Lackawanna and Western Railroad Company to deliver to him 5,800 tons of coal within a given time—the contract exempting the company from a full performance in case of strikes, storms or disasters. Before the full quantity of coal was delivered a strike took place, and the company were unable to make further deliveries. BOWEN thereupon declined to pay for what had been received, and the company brought suit to recover. The matter was referred to a referee, who found for the company. From this decision BOWEN appealed, and on a final hearing Judge SEDGWICK ordered it reversed, taking the ground that the strikes excepted in the contract did not contemplate such a one as was induced by the plaintiffs themselves. That reducing the wages of workmen is not making a proper effort to fulfil the contract. This decision has caused a great flutter among the builders of New York city, as the application of the principle to building contracts, which were interfered with by the strikes of mechanics early last spring, would put them to much trouble and expense.

A LATE number of the *Railroad and Mining Register* contained a good article on the movement among the farmers of the country, from which we take the following apposite paragraph:

> "The prime factor in the case is forgotten both by the consumer and the producer, viz: the enormous expense of labor and time involved in transportation over great distances. If farmers will settle one or two thousand miles from market, how can they expect to get a high price for their crops? If they export bulky grain a vast distance to pay for pianos and Rhine wine and English iron, which can return to them only over still vaster distances, how can they expect to grow rich? Let them learn of Henry C. Carey, and construct markets and factories on their own prairies, and they will soon forget that railway builders and railway managers must be paid for what they do as well as themselves, and becoming independent of transportation lines will see more clearly the just rights of transportation as against (and in harmony also with) the just rights of production.

ASSISTANT ATTORNEY GENERAL SPOONER, of Wisconsin, has given his opinion on the proposed pooling of the earnings of the Chicago and Northwestern and the Milwaukee and St. Paul Railways, in which he states that the carrying out of the scheme would be a violation of the spirit, if not of the letter, of the law of the State, and in case of its consummation it will be the duty of the Attorney General to apply for a writ of *quo warranto* against the companies. This, taken in connection with the earnest protest by the press of the State and the provision of the Constitution giving the Legislature unlimited authority over railroad corporations, indicates it would be extra hazardous to attempt any pooling or any other combination arrangement.

A WELL-POSTED fruit grower in Delaware estimates that the peach crop of the present season will aggregate about 3,570,000 baskets. The falling off in New Castle county, from last year's crop, will be fully 1,000,000 baskets, but this is recovered in Kent and Sussex counties, while the Maryland crop will be much larger than that of last year. So far as the peninsula is concerned, the writer says, the crop will exceed by 500,000 baskets that of last season; but as reports from New York, New Jersey and Pennsylvania indicate an entire failure of the orchards, peaches will not be so abundant in our markets.

DRIVEN out of New York by the operations of the "habitual criminals" act, it is more than probable that a number of thieves and pickpockets will take up their abode in this city. There is, if we mistake not, on the statute books of the Commonwealth, a law whose provisions, similar to those of the New York act, apply to all the larger cities in the State, including Pittsburgh and Allegheny. Let this law be rigidly enforced, and the light-fingered gentlemen be advised to "keep moving."

ATTENTION is directed to an extract from a letter from United States Treasurer SPINNER, published elsewhere, in which he treats of the proper and cheapest way to pay the National debt. He thinks that it should all be paid by the generation that created it, and not left to be liquidated by the next.

SOME Austrian BARNUM appears to be at the head of the management of the Vienna Exhibition, if the outgivings of American correspondents are to be relied upon. All kinds of tricks and traps are in operation to bleed unwary visitors. It is worse, if possible, than our own Niagara Falls.

GENERAL AND PARTICULAR.

An excellent quality of lithographic stone is said to have been found in a quarry in Van Buren county, Wisconsin.

There are fourteen sidewheel steamers at present plying to and from Detroit, a majority of which arrive and depart daily.

The coal mine field, opened and now being developed by the Iron Company of Utah, lies on Pace creek, near Pioche, Iron county, Utah. The coal is of excellent quality, and is easy of access and extraction. The varieties are anthracite and a soft lignite, of fine quality, and, as far as used, have been found to burn well.

At Springfield, Illinois, on Friday last, the graves of the rebel soldiers were decorated at the same time and in the same manner as were the graves of Union soldiers.

And now the Chicago papers begin to growl at the authorities because of the filthy condition of the streets, which were "never worse, and never in a better condition to invite any pestilence which may be stalking about the land, seeking some desirable and permanent abiding place."

The Memphis *Avalanche* remarks on the "Betsey" imbroglio: "It is enough for us to know that 'Betsey and I Are Out,' and so far as these columns are concerned, we propose that they shall stay out."

The Rhode Island strike cost the strikers $150,000, besides a good deal of anxiety.

At Marquette, Michigan, hot ashes from an old pipe set off a package of nitro-glycerine as well as the man that smoked the pipe.

An elegant blue silk banner recently presented to the Atlanta, Georgia, cadets, bears upon the side a representation of the Confederate flag taking its flight heavenward.

A New Haven cut-purse, in dashing at a handsome chain worn by a lady in the street, missed the chain, but laid open the lady's dress from shoulder to shoulder with his little ring-knife.

Queerly enough, the Boston *Advertiser*, of Thursday last, the day before the last great fire, had a long article on "Attacking Fires in Time," in which it was demonstrated that a woman with a pailful of slops was of more use than a fire engine, and another article on "Fireworks," in which the prevalent incendiary method of celebrating the Fourth of July was condemned.

They have been boring for coal in Kinmunday, Marion county, Illinois, and after going ninety feet deep struck a vein ten inches thick; at 185 feet a three feet and ten inch vein, and at 225 feet a five feet seven inch vein of a superior quality.

The exportation of Arab horses from the provinces of Bagdad and Syria has been prohibited for the next seven years, with a view to preserving the breed, which has been seriously diminishing in those parts of the empire.

An agent of the National Grange of the Patrons of Husbandry is canvassing among the farmers near West Springfield, Mass., with the view of establishing a grange there. The tobacco growers are reported to be favorably disposed toward it.

A Sterling, Illinois, butcher recently slaughtered a calf having on the outside and inside of the hide a perfectly marked saddle, stirrups included.

They are laying rails in Florence in order to convey in safety Michael Angelo's statue of David from its unprotected site, in front of the Palazzo Vechio, where it has stood for three hundred and fifty years, to the imperial gallery.

It was necessary to postpone a funeral in Baltimore, on Friday, because all the carriages in the city had been engaged by visitors to the race course.

An intelligent horse stopped suddenly in the road in New Paltz, a few nights ago, while being driven rapidly, and his driver found, upon investigation, a young girl only fourteen years of age lying across the road in a state of helpless intoxication.

After July 1st new postage stamps come in, bearing profiles and colors thus: 1 cent, Franklin, blue; 2 cent, Jackson, brown; 3 cent, Washington, green; 6 cent, Lincoln, red; 7 cent, Stanton, vermillion; 10 cent, Jefferson, chocolate; 12 cent, Clay, purple; 15 cent, Webster, orange; 24 cent, Scott; 30 cent, Hamilton, black; 90 cent, Perry, carmine.

In France there are in use half a million donkeys, and in Italy four hundred thousand. These hardy little beasts do all the hardest drudgery, and it is not uncommon to see a huge load of baskets of garden produce, or bundles of hay, going to market seemingly moving on four small legs of their own, that being the only portion of the diminutive beasts that can be seen beneath the load.

THE NATIONAL DEBT.

Treasurer Spinner's Views as to How it Should be Paid.

General Spinner has addressed a letter to Thomas Canby Riddle, Geelong, Victoria, Australia, in which he acknowledges the receipt of certain communications from that gentleman. These were intended to demonstrate, by figures, "how a saving of hundreds of millions can be made to this nation in the manner of the payment of its debt, different from the plan adopted by our government." General Spinner adds:—

To my mind the cheapest way to pay a debt that is subject to the payment of interest is to pay it at the earliest day possible. An individual with insufficient capital, engaged in a lucrative business, may find it to his advantage to defer the payment of a debt, and continue the payment of interest on the same with advantage to himself. In such a case, or in the case of a nation that has not the means to pay its debt at once or in the immediate future, the scheme of Mr. Riddle would, no doubt, work admirably. Not so, however, with a wealthy and prosperous people. A nation that pays its debt at once pays it the cheapest. The longer payment is deferred and the more interest is paid the dearer it becomes and the more it costs to pay it. Of this seeming truism our people have become convinced and are acting in pursuance thereof. They believe that the sooner a debt is paid and the lower the rate of interest is paid on the unpaid part thereof in the interim the less they will have to pay in the aggregate in its final extinguishment. Acting in accordance with its belief in this principle, our government is now changing its six per cent. into a five per cent stock, this latter being the lowest rate at which it is, at present, able to place its bonds. And it is now almost daily paying every dollar of its surplus revenue in redemption of its six per cent. bonds, thus not only reducing the principal of the debt, but saving the consequent payment of interest thereon. On the first day of July next there will remain unpaid only $268,581,200 of six per cent. stock, on which the government will not have the option to pay at its pleasure, and this amount will all mature on the 1st day of July, 1881, or before that time. On all those stocks, on the government giving three months' notice of its readiness to pay the principal, interest thereon will cease. Under the operation of this policy the debt of the United States has been reduced in the last fiscal year in the sum of $99,960,253 54. From the 1st of March, 1869, when the present administration assumed the management of the finances of the country, to the close of the year 1872, a period of three years and two months, the national debt has been reduced $364,895,299 69, making an annual saving in the payment of interest of $24,385,068. Under these circumstances the proposition seems to be plain that a government in debt that places its stocks at the lowest rate of interest possible, and that has the constant option to pay and does pay, in addition to the interest any part of the principal that it has the means to pay, pays its debt in the shortest and cheapest way possible. All the calculations and figuring that can be made or done cannot be made to prove to my mind the contrary any more than I could be made to comprehend by figures how a man may lift himself by the waist band of his breeches. * * * It is believed that placing an existing debt, that cannot be paid at once, at the lowest rate of interest, and to pay the principal as fast as the means for its payment can be obtained, is the best that an individual or nation can do. The best investment of a surplus is to apply it in payment of a debt; thus not only reducing the principal of the debt, but the interest of the same. This course the government of the United States is now pursuing. Mr. Jefferson laid it down as a sound principle in political economy that a national debt should be paid by the generation that created it. There is now every prospect that our people will follow this wise teaching to the letter. Whenever any other nation shall show better results in the payment of a national debt than this people had accomplished, whether it be by yours or any other scheme, we will be happy to adopt the latter plan. In case your plan should be adopted, I have no doubt but Congress would gladly award you the five per cent. you claim in the net saving that might be made in pursuance thereof over that now in practice for the payment of our national debt by our government.

PERSONAL.

Dr. David Skae, one of the most distinguished authorities on the subject of mental disease, died recently in Scotland.

Selma, Ala., has taken Professor Moore from the chair of mathematics in McKendall College to make him Chief of Police.

The Rev. J. E. Rutlege, of Chebance, Ill., has been suspended from the ministry for betting his watch on three card monte.

A Liverpool woman who chopped her father and a pony has been sent to jail three months for the assault on the horse and two months for that on the old man. Dogberry dispenses justice with curious discrimination.

Train claims that he had something to do with starting the Boston fire. There is no doubt that when the final grand conflagration occurs, Train, if around, will get it into his poor addled brain that his was the hand that applied the torch.

Fred. Douglass will deliver the annual address before the Tennessee Colored Agricultural and Mechanical Association, in Nashville, during the fair in September.

Miss Owen, daughter of Robert Dale Owen, who began to shine as a magazine writer a few years ago, has been compelled, by the failure of her eyesight, to relinquish her literary career.

Two venerable Kentuckians, Colonel Thomas Penn, aged seventy, and Mrs. Elizabeth Rice, a sprightly widow of sixty years, evaded their watchful friends, eloped, and were married last week.

A Boston liquor dealer, fined for violation of the prohibitory law, approached the Clerk of the Court, money in hand, and plaintively urged him to attend to his case as soon as possible, "because he had left no one at home to tend bar."

The London *Court Journal* understands that Dr. Livingstone's discoverer, Henry Stanley, who has returned to England, has done so in connection with the New York *Herald*, and that he is not unlikely to arrange for an English branch of that journal being established in London, if not in Liverpool, too.

An amusing blunder has been made, by American journals, in speaking of the Duc de Broglie, new French Minister for Foreign Affairs, as being eighty-eight years old, thus confounding him with his father, who would have been eighty-eight had he lived till now, but who has been some years dead. He was a much better man than is the wooden-headed fellow who now bears the title.

The *Pall Mall Gazette* points to Palmerston, Brougham, Sir David Brewster, Walter Savage Landor and Thiers as examples of men who have got the most pleasure out of life, and were still young at four-score years. It adds that "there are no better gifts, and none which lead keener enjoyment to youth, than pugnacity, self confidence and vigorous animal spirits;" all of which were possessed by these octogenarians.

We notice a paragraph generally copied in the newspapers that Senator Allison, of Iowa, is soon to wed Miss Anna Dickinson. For once rumor is at fault and has sadly missed the mark. The fortunate lady is a niece of the late Senator Grimes and a resident of Iowa. It is expected that Senator Allison and lady will make a trip to Europe immediately after their marriage.

Mrs. Matilda Jocelyn Gage proposes to take the stump in Ontario county, N. Y., for the purpose of so influencing the public mind in that vicinity that an unprejudiced jury cannot be found for the coming trial of Susan B. Anthony for illegal voting. Not much harm can result, since the jury will only be called upon to decide whether or not Miss. Anthony did really vote,—and the court will say whether the act was legal.

We are indebted to the *Nation* for a bit of decidedly curious information. It asserts that the Apaches have adopted, to a considerable extent at least, that particular species of civilized costume known as the "simple dress of an American citizen"—viz., a swallow-tail coat and pantaloons of black cloth, and a stovepipe hat. It was in this dress, it says, that the Apaches did most of their recent raiding, as it gave a band when seen at a distance on the prairie the appearance of a party of Methodist preachers on circuit, and consequently prevented the spread of alarm about cattle and horses.

Mr. Rees, an English barrister, illustrates the old saw that "the lawyer who manages his own case has a fool for a client." Before he died he wrote his will, covering a score of long drawn foolscap sheets. In searching his papers two pages numbered "four" were found, seeming to be parts of his ultimate testament, and now the Probate Court is puzzled to decide which is which and who are who among the legatees named in the questionable pages. Justly enough, it has ruled that the estate pay the costs of the contest.

The latest libel suit is that of Gen. Daniel Pratt, "the great American traveler and students' perpetual candidate for the Presidency of the United States," against the Rev. Henry Ward Beecher, for publishing in the *Christian Union* an article from the *Yale Courant*, which was itself a partial forgery, accompanied by comments "abusively styling Mr. Pratt the rival of George Francis Train." The damages are set at $100,000, though it is intimated that one night's use of Plymouth Church for the delivery of a lecture, with a dollar admission fee, may be accepted as a compromise.

Probably the best paid of the American newspaper correspondents at Vienna is Miss Olive Harper, who was sent there by the San Francisco *Alta*, but who also corresponds with the St. Louis *Globe*. Miss Harper is incurably lame, and can not move, except on crutches. Yet she is very enterprising, and is an interesting writer. She was posting off to the Lava Beds to report the movements of Captain Jack, when the *Alta* countermanded the orders it had given her, and sent her to Vienna. Though lamed by anchylosis of the knee joint, she is a splendid horse-woman, and even on her crutches she glides along gracefully and easily. She is thirty and a widow—Miss Harper being merely her literary pseudonym.

Furious on the Women.

The women and the smokers are at loggerheads on the smoking question. The latter, as a rule, neither like tobacco chewing or smoking, and the smoker or chewer of tobacco, as a rule, would sooner give up his wife than his cigar and cavendish. One of the latter sort thus writes while in a most indignant frame of mind:

"No wonder women hate it, the dear creatures! The cigar is the sure rival a woman can have; it is one whose eyes she cannot scratch out, who improves with age while she herself declines; who has an art which no woman possesses—that of never wearying her devotee; and lastly never upraids and always yields the same joy." And says another: "There are some things in this world worse than tobacco smoke, and among them I class the eternal clamor, the inane gossip, the unmeaning chatter of women. Many a time at the garden, has a charming performance been completely marred by the inconsiderate, everlasting wagging of the tongues. Could a compromise be effected—the ladies giving up the threadbare tricks of flirtation and 'noise so loud' and gentlemen relinquishing their cigars—I would be the first to endorse the new regime; but until such is inaugurated I will continue to torture their delicate olfactory organs with the fumes of my Henry Clay."

THE Rev. Dr. Hall, a distinguished clergyman of the Presbyterian church in New York city, publishes a letter in which he sums up the proceedings of the General Assembly at Baltimore, and makes one point of no small interest to the members of that religious body. It is to the effect that the Presbyterians have determined that nothing but what is exceptionally momentous should allure the church from her own spiritual field into the department of the State—a conclusion which was definitely proclaimed at Baltimore in the treatment of the Centennial Celebration at Philadelphia. The church avowed its patriotic feeling, but it declined to step outside of its proper field. The duties of religion, in short, are distinctly separated by the Presbyterian body, from the duties of the State, and its members are at least committed to the doctrine that the church cannot gain by becoming a branch of the civil service. The decision is a wise one, and if the Baltimore assemblage had made no other sign than this, the time occupied in its deliberations would not have been wasted.

THE last Kentucky Legislature passed an act declaring that the wages and compensation of married women for labor and service performed by them shall be free from the debts and control of their husbands. For a number of years the courts of the State have been authorized to empower married women, on the joint application of themselves and their husbands, to act as single women in matters of business. So Kentucky is not so far behind the rest of the world, after all.

A BOOK agent recently invaded a snug cottage in Pittsfield, Mass., where he found a bright-looking little woman sewing by the window. So he began to descant volubly on the merits of the book which he had for sale. This he kept up for half an hour, and as the little woman made no answer, he concluded that he had found a customer. He handed her the pen which he had found ready for her to make her subscription; whereupon, instead of putting her autograph on the list, she wrote upon a scrap of paper from her work-box. "Ime defe and dum." It was too much for the disappointed man, and he evacuated the cottage without saying another word.

THE VIENNA CATCHPENNY.

The Great Exhibition a Humbug—All Kinds of Devices to Extract Money from Visitors.

The Vienna correspondent of the New York *Tribune* writing under date of May 16, says: The devices of the Exhibition management to lighten the pockets of visitors provoke much sharp criticism and satire in the Vienna papers, and are sometimes resented by the visitors in a way that expresses their opinion unmistakably. The open-air concert by Strauss's Orchestra was broken up, the other day, by the indignant audience, who found, when they arrived on the ground, that all the space within ear-shot of the music-stand was occupied by chairs for which a gulden each was demanded. Somebody had got a "concession" to monopolize the space in this way, so that the concert, advertised as free to all who visited the Exhibition, could only be heard by paying an extra half-dollar. Music is almost as free as air in Vienna. There are dozens of beer-gardens and restaurants where one can hear a really excellent orchestra for the few kreutzers that a glass of beer costs; and the best of military band music can be enjoyed any pleasant day in the parks for nothing. The people who went to hear Strauss were, therefore, naturally indignant at the trick, and refused to pay their guldens. Finally the clamor became so great that Strauss and his pipers and fiddlers marched off without playing at all. Another pretty and annoying device of the management is to refuse to change money at the gates where entrance tickets are sold. Somebody has a concession for keeping an exchange office near each entrance, where the visitors must submit to a shave to have his money changed. Last Sunday, when the admission price was half a gulden, the cashier refused to take a gulden for two tickets, and gentlemen accompanied by ladies had to go to the money changer's and return with the exact sum of fifty kreutzers for each ticket wanted. The carriage regulations are also devised to bleed the public. You leave your carriage at one of the entrance doors, but when you come out you don't find it. An official in uniform politely informs you that it has gone to the *Standplatz*. But where is the *Standplatz*? A quarter of a mile away at least. You must send a telegram from an office close by the gates, which costs you ten kreutzers, and after you have waited fifteen minutes, in the rain, perhaps, the vehicle appears. But this is not the only imposition you must submit to. A fellow with a red band around his cap and numerous brass buttons on his coat opens the carriage door for you whether you want him to or not, and of course must be paid for this superfluous service. Another catchpenny device is the placing of chairs in various parts of the buildings and grounds, with no notice upon them that their use is not free. The verdant visitor, tired of tramping about and gazing at the "universal unreadiness" of the Exhibition, sinks into one of these seats with a disposition to be grateful for the thoughtfulness of the management in providing a rest for the weary, when a smart girl with a leather bag strapped to her waist, pounces upon him, thrusts a paper ticket in his hand and demands ten kreutzers for the use of the concession of the right to rent chairs, it appears. There is a sharp *bon mot* in the *Figaro* on these schemes to capture the guldens and kreutzers of the unwary, which cuts more ways than one. The roof of the industrial palace leaks in the rotunda and at other points. The *Figaro* noticing this fact, says that Baron Schwartz has rented these interesting points for 100,000 guldens to an American who will charge visitors twenty-five kreutzers a minute for cooling themselves off under these shower-baths.

Summer.

Although the mother of myriads of beautiful flowers, is apt to steal the roses from the cheeks of those who are exposed to its fiery breath. At this season if there are any germs of disease in the system the heat is pretty sure to develop them. The bilious, the dyspeptic, the nervous, the debilitated, suffer more at this period of the year than at any other. They, therefore, require an invigorating and regulating medicine, and this desideratum has been placed within the reach of all in the form of Hostetter's Stomach Bitters. To recount the uses of this invaluable preventive and remedy, seems like repeating a familiar fact that has been notorious everywhere for many, many years. Who does not know that dyspepsia, bilious disorders, constipation, diarrhœal affections, rheumatism, nervous complaints, kidney disturbances, and constitutional weakness, in both sexes, are relieved and radically cured by this powerful yet harmless vegetable preparation?

For Official Letters and Returns.

No. 1, size 3¼ by 5½ inches; estimated number required annually, 5,000,000.

No. 2, size 3⅜ by 6¾ inches; estimated number required annually, 750,000.

No. 3, size 4 by 9 inches; estimated number required annually, 1,250,000.

No. 4, size 4½ by 10½ inches; estimated number required annually, 500,000.

For Registered Packages.

No. 5, size 5 by 10½ inches; estimated number required annually, 1,000,000.

The estimates given are intended as a guide to bidders. The Department may require more or less of each kind as the service may demand.

Bids must be made for each kind of Envelope (official and registered packages) separately, and the contract will be awarded for each kind to the lowest responsible bidder.

Samples of the different sizes and styles of Envelopes required, together with blank forms or bids, will be furnished on application to the Third Assistant Postmaster General.

The envelopes must strictly conform in size, quality of paper, gumming, and make, to the samples, the gumming on the flaps or lappets to be done in the best manner by hand. The envelopes must be banded in parcels of twenty-five, packed in strong pasteboard or straw boxes, securely bound with linen or cotton cloth on the corners and edges, each to contain not less than 250 of sizes Nos. 1 and 2, and not less than 100 of the other sizes, or otherwise, as may be ordered, the boxes to be wrapped in strong manilla paper, and properly sealed, so as to bear safe transportation by mail to postmasters. When required to be delivered at the Department, the wrapping may be dispensed with, in the discretion of the Postmaster General.

When 2,000 or more Envelopes are required to fill the order of a postmaster, or when large lots are ordered to be sent to the Postoffice Department, they must be packed in strong wooden cases and properly addressed, but when less than 2,000 are required to be sent by mail, proper labels of direction must be placed on each package; all to be done by the contractor without additional charge.

The Envelopes must be delivered in such quantities as may from time to time be required to fill orders of postmasters or of the Department, and be delivered either at the postoffices in the city where the accepted bidder may be located, or at this Department, as the Postmaster General may direct, free of cost for packing, labeling, and delivering; the whole to be done under the inspection and supervision of an agent of the Department.

All the Envelopes herein described must bear such printing as the Postmaster General may direct, and the Registered Package Envelopes will be required to be printed in Vermillion or some other approved brilliant color.

The Postmaster General reserves the right to reject any and all bids if in his judgment the interests of the Government require it.

Each proposal must be signed by the individual or firm making it, and be accompanied by a guarantee certified to be responsible and sufficient by the Postmaster or United States Attorney where the bidder resides, that the bidder shall, within ten days after being called upon to do so, execute a contract to furnish promptly, and in quantities as ordered, the articles or articles awarded to him, to be accompanied by a bond with approved security, in a penalty of not less than twice the contract price of all the articles estimated to be furnished by a bidder, conditioned upon the faithful performance of the same.

Proposals unaccompanied by such guarantee will not be considered.

The Postmaster General reserves to himself the right to annul the contract if in his judgment there shall be a failure to perform faithfully any of its stipulations, or in case of a wilful attempt to impose upon the Department Envelopes inferior to samples. The failure to comply with any one order under the contract will operate as a forfeiture of the entire penalty of the bond under the 17th section of the act of Congress, approved August 26, 1842, entitled "an act legalizing and making appropriations for such necessary objects as have been usually included in the general appropriation bills without authority of law, and to fix and provide for certain incidental expenses of the Departments and offices of the Government, and for other purposes," (U. S. Statutes at Large, Vol. 5, page 256;) or the Postmaster General may, in his discretion, direct the purchase in open market of such quantities of Envelopes as shall be necessary to supply the deficiency caused by the failure, and charge to the contractor or contractors fifty per centum of the price which it shall be found necessary to pay for such articles.

Bids should be securely enveloped and sealed, marked "Proposals for Post Office Envelops," and addressed to the Third Assistant Postmaster General, Post Office Department, Washington, D. C.

JOHN A. J. CRESWELL,
Postmaster General.

PEARL WHEAT
IS WITHOUT DOUBT THE MOST
Delicious, Wholesome and Nourishing
Preparation of nature's great food ever produced. Essentially nothing but the woody fibre and a portion of the water are removed by us, leaving all the starch gluten and the greatest part of the mineral substances (phosphates) all what is most nourishing in wheat. The removal of the woody fibre makes it easily digestible. Nothing in the market can compare with it. Pearl Wheat is invaluable. Our best physicians here say it is of more importance than anything they can do for you. Try it once and you will never be without it. Ask your Grocer or Druggist for a Package. FINANCE AND TRADE.

TUESDAY EVENING, June 3, 1873.

The *Financial Chronicle*, of this week, treats in its usual able manner the relations of foreign capital to our home money market, from it we epitomise the following: The chief point of interest being the firmness with which our securities have sustained themselves in the European markets, notwithstanding the wide devastation produced by the panic. The market reports show that in Germany, as elsewhere, 5-20s have shown themselves to be the very best foreign security in which European capitalists can invest itself. This lesson will not be lost on the frugal multitude of persons of small means on the continent and in England, among whom information is now more accessible relative to o bonds than eurver before. This growing demand for American securities has brought into existence a number of Trust companies, both in England and Scotland, which have for their object the raising of capital to be invested in American securities, governmental and corporate.

The natural dependence of our market on that of England led to the expectation that the rise to 6 per cent. of the bank rate would disturb the New York market, but that expectation has not been verified, as the rate for money among the stock banks of London is as a rule, from ½ to 1 per cent. below the minimum rate of the bank. This discrepancy shows that the Bank of England has lost her sovereign control over the rate of interest in London, and cannot be sure that the other banks will follow her rate, if merely raised for the purpose of attracting gold into her vaults. Judging from all the facts in the case the opinion is expressed that the flow of foreign capital in this direction will be larger for the next six months than at any similar time since the close of the Geneva Convention. It is not without reason that the public attach so much importance to this prospective influx of foreign capital, for it is really the most important preventive or remedy for some of the formidable monetary evils that trouble us, and it will help us to avoid some of the perils which strew so thickly the rugged path we are traveling toward specie payments.

—The London *Economist* of May 17, in speaking of the recent depression in the London market, says:

> A rather heavy fall in foreign securities has taken place within the last few weeks, as the result of the political troubles in France and Spain, the anticipation of large new issues of foreign loans, and the speculative collapse in Germany, which has, perhaps, been the most potent cause of all. The following table will give an idea of what the fall has been among the principal securities affected, which are mainly those dealt in on the continental Bourses as well as in London:

	Price in March.	Price May 16.	Fall
Egyptian, 1868	93½	87½	6
Do Khedive	88	79¼ xd.	5¼
French Scrip	7 prem. cum. div.	3 prem. xd	2½
Italian, 1861	64¾	62¼	2
Spanish	27*	20	7
Turkish 5 p ct.	54⅜	51¼	3⅛
Mexican	18⅜	15¼	3
Russian, 1872	94	93⅜	⅝
Peruvian, 1872	69	64½	4½
Austrian silver rentes	67⅛	65⅛	2⅛

*In this case we give the February price, the fall in Spanish having preceded the others.

During this time the United States bonds declined but a fraction, and soon rallied to their usual rate on large sales.

—Messrs. Ira B. McVay & Co. report the following quotations of government bonds in New York to-day, as furnished them by Jay Cook & Co., their corresondent:

	Morn.	Eve.
U. S. Bonds of 1881	122¼	122

—James T. Brady & Co., corner of Fourth avenue and Wood street, quoted United States securities in New York to-day as follows:

Gold	117⅜

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, TUESDAY, June 3, 1873.

REMARKS.—A shade of dullness seems to hover over the market, and we cannot report that state of activity that we could wish.

The flour market is still in an unsettled and uncertain state, though prices are not quotably lower for choice and favorite city and western brands.

Wheat continues in large receipt, the bulk of the arrivals being taken by the mills, who are "stocking up" for the intervening space of time between this and harvest.

Bacon and provisions continue to rule active, and a fair local and country demand is reported at unchanged rates.

Groceries, though not particularly active, dealers report the market in a healthy state, and assure us that a fair trade is being daily transacted.

Butter is still a drug, with prices dull and drooping. Eggs may be placed in the same category. Prices show no change since our last report.

The vegetable market is fully supplied with all sorts of "green truck" at all sorts of prices.

The following are the receipts of the leading articles of produce since our last, exclusive of elevator:

Wheat, sacks	3,363	Rye, sacks	340
Oats, sacks	4,211	Flour, barrels	1,793
Cheese, boxes	489	Apples, barrels	95
Butter, packages	33	Corn, sacks	547
Bacon, tierces	52	Barley, sacks	170

Owing to the general uniform state of the market we omit extended quotations.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL, WEDNESDAY, June 4, 1873.

REMARKS.—The market was again dull, prices being altogether nominal, with a declining tendency, although holders contend that prices have touched bottom. It will, however, take time to decide that question. Parker's was weak, but no lower. Buyers, however, were indifferent about operating.

CRUDE.

We did not learn of a single transaction for any delivery. We reduce our figures ⅛@¼c per gallon here, with offerings to sell at 6¼@6½c. For prices in the oil regions see dispatches.

REFINED.

The market was reported quiet, but very dull, with prices at ½c lower. Holders were offering to sell standard brands at 16@16½c per gallon.

OIL BARRELS.

The supplp continues light, and the market is very firm. City Make $2 15@2 20; country $2 10.

Cattle.

The receipts of cattle this week so far have been fair, both of through and way stock. The market has not fairly opened yet, and it is hard to give current rates. There is a fair attendance of dealers, but the only sales made thus far are to country buyers, who are taking light cattle. New York and Philadelphia markets are both reported bad, and the impression prevails that buyers will try to purchase at lower figures. Following are the prices at which the different grades are held:

Extra 1,400 to 1,500 lb steers, fine and smooth, $6 75; extra 1,300 lb steers, fine and smooth, $6 50; extra 1,200 lb steers, fine and smooth, $6 25 to $6 35; prime 1,100 lb steers, fine and smooth, $5 75 to $6 00; fair 1,000 lb steers, fine and smooth, $5 55 to $5 75; stockers, $5 25 to $5 50; bulls, $3 75 to $4 50; fresh cows, $34 to $60.

Hogs.

The receipts of hogs fair, and fully equal to, if not greater than the demand. The market to-day is slow, and prices are off on Yorkers from yesterday's rates, from 10c to 20c per 100. Buyers are not purchasing liberally, and a heavy supply would force rates lower. Following were the closing rates this evening:

Extra Philadelphia, $5 45; prime Philadelphia, $5 35; mixed, $5 25; Yorkers $5 00 to $5 10.

Sheep.

The run of sheep heavy, and quality good. Market slow, not many sheep changing hands to-day. Buyers are holding off, talking lower prices, and at this writing the indications are that lower rates will rule. Following are the prices:

Extra 100 lbs, $5 65 to $5 70; extra 95 lbs, $5 50; prime 90 lbs, $5 25 to $5 30; prime 85 lbs, $5 00.

STOCK EXCHANGE.

Stocks opened firm, but a weakness soon set in and prices declined. After two o'clock a reaction took place, and prices advanced to and closed at about the highest point of the day. Most active dealings were in Pacific Mail, which fluctuated as follows: 38⅞, 39⅛, 38⅞, 39¼, 38⅞, 39⅛, and 39⅜. Next in point of interest was Union Pacific, which receded from 27⅞ to 27⅝, but finally, under purchases by the Clark party, closed at 28⅜. It is thought that the friends of Clark contemplate a bull movement in Union Pacific on his return from the West, he now being on the way here from Chicago. The principal dealings outside of these two stocks were in Rock Island, Ohios, Lake Shore, and New York Central. The general market has a firm undertone, and it seems easier to advance than to depress prices. Pacific Mail moves independently of the general market, being governed by special considerations.

MONONGAHELA—Three feet five inches and falling.

Boats Departing this Day.

Geneva mail packets		8 A. M. and 5 P. M.
Cincinnati	Juniata	Brennan 12 M.

THE marks last evening indicated three feet five inches and falling slowly. The weather was very warm during the day. We regret to say that business on the landing was very dull.

THE salary of the Jeffersonville wharfmaster has been fixed at $400 a year.

THE towboat Greyhound left Cairo for this city with five barges of iron ore.

THE Allegheny Belle No. 4 was to leave St. Louis on Sunday for Pittsburgh, with 1,100 tons of ore.

THE steamer Carrie Brooks, Capt. Darlington, left for Zanesville on time, with a moderate trip.

CINCINNATI.—Capt. R. M. Wade has been appointed General Superintendant of the U. S. Mail Line.

GETTING DOWN IN THE WORLD.—The river editor of the Vicksburg *Herald* has announced himself as candidate for Sheriff.

CAPT. J. P. SMITH contracted for a new hull at Bellevernon almost two months since. The Western papers have just found it out.

THE Messenger, en route for St. Louis, has the following freight: 250 tons of ore for Wheeling, 250 tons pig metal for Pittsburgh, and 20 tons clay and 100 tons shipstuff.

THE Memphis *Avalanche* says: The ownership of 200 steamers are claimed at Pittsburgh, and yet she can't own a dock to take out a 200 feet vessel. Send down this way and buy a second handed one.

AN EFFORT is being made at Davenport to exempt all steamers from wharfage fees; $322 was only collected for the year ending April 1, as the K. N. Line own their own frontage and landing at that point.

THE mail packets in the slackwater leave daily at 8 A. M and 5 P. M. These boats have superior accommodations, and are in charge of careful and gentlemanly officers. For further particulars call on Captain A. S. Carlile, who knows all about it.

THE splendid side wheel passenger packet Juniata, Capt. C. L. Brennan, takes her departure this day at 12 M. for Cincinnati and way points. For speed, accommodations and attentive officers, this boat stands A No. 1. Our attentive friend, W. S. Dravo, will do the honors of the office.

NEW ORLEANS.—The *Herald* on the situation says: Business played out, gone completely under with not a redeeming hope in sight. The boats are all leaving with very light trips, and were it not for the salt, railroad iron and sugar now shipping, they would all have to take to the bank and wait further developments.

THE decision in regard to the collision of the Exchange and Fair Play. What the Inspectors say: "We have this day revoked the license as master and pilot, of Wm. A. Hoge, for causing a collision between the steamers Fair Play and Exchange.

"JOHN R. NIELD,
"GEORGE H. ATKINSON, Inspectors."

THE Secretary of the Treasury decides that the law contemplates that the master of a vessel shall perform the duties of his station, and to enable him to do so he must be on board. The insertion of his name in the marine papers presupposes that he shall be in a position to discharge his duties, which he cannot do if he is on shore, while the vessel is at sea in charge of another person, who is master in fact, but whose name does not appear in the documents.

IT cost from $500 to $800 to build and fit out the lower Ohio produce and flat trading boats. From time out of date in the past flatboat people have practiced the business of floating down to a market, selling out the cargo, and then selling the flatboat for old lumber or for woodboats at from $100 to $200 apiece. Now, a new idea has struck the broadhorn people, and they think it will be a wise and paying plan to have their empty barges towed back for another load. It is said the coal towboats will do the towing at reasonable rates, and both parties will make money by it.

A SENSIBLE IDEA.—Towing back flatboats, after using them in the winter trade in the South, is destined finally to be the plan adopted by our flatboatmen, especially by those who fit up coast trading boats, which have to be built more expensive than the produce boats. The returning Pittsburgh coal tows will readily take the job at considerably less than one-half the original cost of the boat, counting the saving of freight bills on boating tackle, remnants of goods and passage—for as many of the crew as desire to do so can live aboard and be "towed" right to our wharf in the boat in which they have lived through the winter, making the trip comfortably in nine days.

PARTIES here are arranging to send Pittsburgh and lower Ohio river coal to Little Rock in tows, for the purpose of supplying that city with their winter fuel.

From the time the steamer Little Alps was sold last fall, by Captain John Zent, up to the date of her loss last week, she made five trips between here and points this side of Cairo to New Orleans. Once she went south with 2,230 bales of cotton on a barge; twice she went down with two barges, carrying 19,200 sacks of corn, 5,000 sacks of oil cake, and 450 tons of sundries; then she made two log towing trips, carrying 2,400 walnut logs to New Orleans for the European market, and also taking a barge of ice to Chicago. In addition, she brought up stream 900 tons of railroad iron and some other freights. Her career was successful, and 'tis a pity the elements conspired to destroy her.—*Memphis Avalanche.*

[From the Sioux City Journal, May 29.]

The Far West reached Benton on Monday last, the first boat to Benton, as usual.

The river continues to rise. There is considerable drift wood coming down, which indicates a rise in the tributaries above.

The Key West is expected to get away from Yankton for the Crossing this evening—but it will probably be to-morrow morning.

The steamer Peninah, Capt. Shaw, reached Yankton yesterday morning from above, and her clerk, Jimmy Greenough, came down on the noon train yesterday, and favored us with the following mem. of the trip:

Left Fort Abraham Lincoln on the 24th at daylight; met E. H. Durfee and Mollie Moore at Grand river at 5 P. M. same day; lay all night at Morrow river. On Sunday, the 25th, met the Katie P. Kountz at Clemean's six miles above Cheyenne, at 11 A. M.; landed at Sully at 2 P. M, and found the Miner there; lay all night at Farm Island. Landed at Crow creek on the 26th, at 7 P. M., and took on five hundred hides and eleven bales of robes and skins for H. D. Booge & Co.; lay all night at Brule Agency. On the 27th met the Western at Hamilton's Island at 10 A. M; May Lowrie lying at the bank five miles below Randall, cutting wood; lay opposite Frankfort all night. Arrived at Yankton at 4:30 A. M. on the 28th.

$500,000 in Bank to pay Gifts

10,000 CASH GIFTS PAID IN FULL

$100,000 for Only Ten Dollars

Enough of the 100,000 tickets issued for the THIRD GRAND GIFT CONCERT, in aid of the Public Library of Kentucky, having been sold to insure a full drawing, and the wish having been universally expressed that the 10,000 cash gifts offered should be drawn in full and paid in full without any scaling down, as heretofore, the management, with the concurrence of the trustees, have determined to allow ninety days more for the sale of the remnant of tickets left on hand. The concert and distribution advertised for April 8 is therefore postponed to Tuesday, July 8, 1873, on which day and no other, they will positively and unequivocally take place in Public Library Hall, Louisville, Ky.

At this grand concert the following cash gifts will be distributed by lot and paid in full to the ticket holders who draw them:

Total, 10,000 Gifts, all Cash		$500,000

The money to pay all these gifts in full is now upon deposit in the Farmers' and Drovers' Bank of Louisville, and set aside for that purpose, and can only be used for that purpose, as will be seen by the following certificate of the Cashier:

OFFICE OF FARMERS' AND DROVERS' BANK, LOUISVILLE, KY., April 7, 1873.

This is to certify that there is in the Farmers' and Drovers' Bank to the credit of the Third Grand Gift Concert, for the benefit of the Public Library of Kentucky, five hundred thousand dollars, which has been set apart by the managers to pay the gifts in full, and will be held by the bank and paid out for this purpose, and this purpose only.

R. S. VEECH, Cashier.

The party, therefore, who holds the ticket drawing the capital gift will get $100,000 in greenbacks, and so of the $50,000 gift, the $25,000, the $20,000, the $10,000, the $5,000, and all the other gifts, 10,000 in number, amounting to $500,000.

The remnant of unsold tickets will be furnished to those who first apply (orders accompanied by the money always having preference over agents) at the following prices: Whole tickets $10; halves $5; and quarters $2 50; 11 whole tickets for $100, 56 for $500, 113 for $1,000, and 575 for $5,000. No discount on less than $100 worth of tickets at a time.

The concert and distribution of gifts will begin at 6 o'clock on Tuesday morning, July 8, in Public Library Hall, and the following will be the order of proceedings: 1st. Music by orchestral band. 2d. Placing of tags (one for each ticket sold) in large wheel. 3d. Placing of gifts in small wheel. 4th. Music by orchestral band. 5th. Explanatory remarks by President. 6th. Drawing of first half of gifts. 7th. Music by orchestral band. 8th. Drawing of last half of gifts. 9th. Placing of large wheel with tags in bands of committee appointed by audience. 10th. Grand orchestral concert.

The music on this grand occasion will be the best that can be procured, and the gentlemen who count and place the tags and gifts in the wheels and superintend the drawing and keep the record of the drawn numbers will be chosen from the best known and most trustworthy citizens of the State. All will be so conducted as to be a perfect guaranty against complaint from any just source.

The payment of gifts will begin on Saturday, July 12, at 9 o'clock A. M. Tickets drawing gifts must be presented at room No. 4, Public Library building, where cash checks upon the Farmers' and Drovers' Bank of Louisville, or sight drafts upon the Fourth National Bank of New York, at the option of the holder, will be given for the tickets. All gifts not called for in 6 months from the drawing will be turned over to the Public Library fund.

For full particulars send for circulars.

There were five conventions in all, numbering one hundred and twenty-five delegates each—an aggregate of six hundred and twenty five members. Nearly every man was in attendance, and most of them were on the ground as early as ten o'clock. In addition to the delegates were the candidates and their friends, numbering several hundreds, so that the Court House and grounds presented an unusually animated appearance. The conventions were largely made up of the most active and influential workers in the party, and from the reports which follow it will be seen that they have done their work well and satisfactorily, and placed before the people a most excellent ticket.

Mr. Dalzell opposed the motion to adjourn. The Committee on Contested Seats would report in time to enable the delegates to vote.

The motion for adjournment was decided in the negative, and the motion to proceed to ballot for President Judge was adopted.

General Pearson moved that all the delegates having credentials be admitted, but the chair held that as temporary officer he had no right to admit the motion. He then moved the appointment of a committee of five on contested seats, but the chair held it a recognized rule that the temporary chairman had nothing to do with the matter of contested seats and he declined to consider the motion.

An appeal was taken but not put during the excitement ensuing, and

On motion of Dr. Hoffman the election of a permanent chairman was proceeded with.

PERMANENT CHAIRMAN.

R. T. Smyth and Gen. A. L. Pearson were nominated, and the ballot resulted in the selection of Mr. Smyth as follows:

Smyth	83
Pearson	29

The result was announced amid great applause.

ORGANIZATION COMPLETED.

Mr. Smythe, upon taking the chair, said the honor was entirely unexpected, and that he had been placed in a novel position. He would endeavor to discharge the duties impartially.

Mr. Coursin moved that the temporary Secretaries be continued. Adopted.

Gen. Pearson then moved for the appointment of a committee of five on Contested Seats. The motion was adopted, and the Chair appointed Messrs. Dennison, Larimer, Grinett, Wettach and A. L. Pearson.

On motion the Convention took a recess for one hour.

AFTERNOON SESSION.

The Convention reassembled and was called to order at twenty minutes past one o'clock.

Mr. B. B. Coursin moved that a committee of four be appointed on resolutions. The motion was adopted, and the Chair appointed Messrs. B. B. Coursin, L. E. Backofen, John McKelvey, John Caughey, and P. Walters, Jr.

THE CONTESTED SEATS.

The Committee on contested seats reported in favor of admitting the following gentlemen to seats in the Convention: Second precinct, Twelfth ward, Pittsburgh, Robert Herron; Thirty-sixth ward, Pittsburgh, Jacob Smith; Sixth ward, Pittsburgh, L. E. Backofen; First ward, Allegheny, Thos. McKenna; Ninth ward, Allegheny, Thomas Harris; Tenth ward, Allegheny, Hugh S. Fleming; Reserve township, W. H. Stemple; Chartiers borough, W. J. Reed; Mansfield borough, Daniel Boden; Second precinct, Baldwin township, C. H. Johnston. The report was adopted.

THE VOTE FOR SENATORIAL CANDIDATE.

A motion to proceed to nominate a Senatorial candidate was then made and carried.

Mr. B. B. Coursin nominated Hon. George H. Anderson.

Sheriff Fleming nominated Charles Jeremy, Esq.

The nominations closed and the Convention proceeded to vote *viva voce*. The ballot resulted as follows:

Anderson	92
Jeremy	35
Anderson's majority	57

A motion was made to make the nomination unanimous, which was adopted.

Mr. Anderson being loudly called for said:

ADDRESS OF MR. ANDERSON.

GENTLEMEN—It is now three years since I stood before a convention. I was then new in politics and had much to learn. I am very glad to say that all may see what has been done during those three years and know my record. Many here have solicited efforts of legislation to whom I have had to say, frankly, no! During the time I have been in the Senate important questions have been acted upon. The labor question—one of interest to all—has engaged attention. Delegations have visited Harrisburg and have labored for such legislation as they have deemed just and proper. I have given all attention, and have acted in everything to the best of my ability. Large delegations of miners, many of whom are here to-day, have visited me and in questions of public policy I have had tilts with some. I never voted against the screen bill as charged. The first bill upon examination I found required amendments to make it fair and to make it stand in the courts. I inserted a clause allowing contracts between employers and employees and voted for it. Last year another bill came up and the coal men came on. I examined it and agreed that it was fair as far as it went, but said that it fell short of your wants. I agreed to vote for it, and upon the floor of the Senate did so, at the same time stating my opinions. I have made no pledges in this canvass, although asked to do so. But this pledge I will make: that I will, if elected, do my very best to elevate and dignify the American classes, equally and justly.

The remarks of Mr. Anderson were received with great applause, and the delegates from the First and Second Legislative districts, city, then retired to the Grand Jury rooms.

FIRST CITY DISTRICT.

The delegates from the First nine and the Fourteenth wards elected C. E. Millikin Chairman, and immediately thereupon a motion was made to nominate H. H. McCormick, Esq., for Assembly, which was put and carried unanimously. Adjourned.

THE SECOND CITY DISTRICT.

The delegates from the Second city district met and organized, with General A. L. Pearson in the chair.

A motion was at once made to nominate S. J. Wainwright by acclamation, which was carried, and the Convention adjourned.

The Third Legislative Convention.

The delegates outside of the city of Pittsburgh met in the Quarter Sessions court room, and, on motion, Mr. Smyth, chairman, and secretaries remaining, were continued.

Mr. Coursin moved that John C. Newmyer be unanimously nominated as candidate for Assembly from the district between the rivers. Action deferred.

MR. NEWMYER NOMINATED.

Nominations were made for the remaining position as follows: Louis Aurin, J. W. Ballantine, B. C. Christy, J. L. Cline, Wm. Coates, A. C. Hays, J. C. Newmyer, R. S. P. McCall, J. D. Ramsey, H. K. Sample, J. Martin Schafer, A. B. Young, Henry Gerwig:

Mr. Tomlinson offered a resolution that the Convention be divided into four districts for Legislative purposes—one from the middle district, two from Allegheny, and two from the South Side.

A number of delegates considered this a fair division, but others opposed it on the ground that no delegate should be debarred from the privilege of voting for whomsoever he pleased.

The resolution was voted down.

Mr. Coursin then renewed his motion to nominate Mr. Newmyer by acclamation, and it was adopted by a very decided vote.

The Chair made the formal announcement, and Mr. Newmyer in response to calls appeared before the Convention and made a brief speech, returning thanks for the honor conferred.

FIRST BALLOT FOR ASSEMBLY.

The ballot for the remaining four Assembly candidates was then proceeded with, and resulted in the election of two candidates, 51 votes being necessary to a choice. Following is the ballot:

Aurin	12
Ballentine	39
Christy, B. C	46
Cline, J. L.	5
Coates, Wm.	44
*Hayes, A. C.	53
McCall, R. S. P.	15
Ramsey, J. D.	18
Sample, H. K.	45
Shafer, J. Martin	15
*Young, A. B.	69
Gerwig, Henry	27

Messrs. Hays and Young were declared elected, and there being two candidates yet to nominate, a second ballot was ordered.

Alderman Smith moved to nominate Henry Gerwig, of Allegheny, by acclamation.

Loud cries of "proceed to ballot" were heard from all quarters.

Mr. Graham said that Allegheny, with its seventy thousand inhabitants, claimed one delegate, and as Mr. Ramsey's name had been stricken from the list, he moved that Mr. Gerwig be nominated by acclamation.

The Convention refused to entertain the motion, and the ballot was ordered.

SECOND BALLOT.

Mr. Ballantine's name being withdrawn a second ballot was proceeded with, resulting as follows:

Christy	59
Gerwig	52
Coates	45
Semple	34

The announcement was made that Messrs. Christy and Gerwig had been nominated. The successful candidates were loudly called for. Mr. Christy appeared. He said, if elected, he would pledge himself that he would so conduct himself that Allegheny county should not be ashamed of him. Mr. Gerwig also briefly returned thanks for the honor conferred.

RESOLUTIONS ADOPTED.

The following resolutions were then read and unanimously adopted, after which the Convention adjourned:

Resolved, That the administration of Governor Hartranft meets our warmest and heartiest approval, and we point proudly to its success as justifying the confidence placed in him by the Republicans of Allegheny when they gave him over 9,000 majority. Nobly sustained, as he has been, by the Secretary of the Commonwealth and his Attorney General his administration of the Government reflects honor upon the State, and the highest credit upon himself and the officers he has called to his aid.

Resolved, That we reaffirm our confidence in President Grant, and in the wisdom, integrity and success of his administration.

Resolved, That we condemn without reserve voting for or receiving increased pay for services already rendered, and demand that the provisions of the late act of Congress, by which the salaries were increased, should be promptly and unconditionally repealed.

Adjourned.

Convention No. 3—Prothonotary.

This convention met in the Common Pleas Court Room No 1, and was called to order by Thomas S. Mitchell, Esq.

The following named gentlemen were chosen temporary secretaries: H. D. Rolf, H. R. Chalfant, James Penney, J. M. Courtney, Thos. H. Hunter and John A. McQuaid.

Dress Fashionably.

The first rule that every gentleman is expected to follow is that of dressing fashionably. That rule gentlemen in Pittsburgh carry out to as great an extent as in any other city in the country, and as a consequence they will look around for the tailoring establishment enjoying a fashionable reputation. All gentlemen who have heretofore purchased clothing of B. Tiegel, No. 53 Smithfield street, have congratulated themselves on their selection. He has on hand a fine stock of cloths, cassimeres and gentleman's furnishing goods. Give him a call.

A Leading Wagon Manufactory.

As this is the season of the year at which all who can afford to enjoy the privilege wish to appear on the road with a first class turn out, and as they will naturally desire to know where they can procure one of that description, we take pleasure in recommending all such to call upon Messrs. C. Coleman & Son, wagon manufacturers, Nos. 16, 17, 18 and 19 Marion avenue, Allegheny City, where they can be suited both in regard to quality and price.

A Good Invention.

Among the inventions of the present day none bear such an extensive reputation as the celebrated Anderson Sash Balance. No better evidence of its popularity need be quoted than the demand for it by all our prominent builders, as no house is considered complete unless fitted up with this invention. The demand is not only from Pittsburgh, but from everywhere where it has been seen in practical use. Call at the agency in this city, No. 70 Smithfield street, and see it in practical use.

Lippincott's Keystone Soda Fountains.

Before purchasing, please call and examine our samples, or send for catalogue. We are able to present many new and elegant designs, and this season have many novel features to produce never before brought out.
